Q: Can't I just use a scrub to get smoother-looking skin?

A: Normal exfoliating scrubs simply remove dead skin from the upper layer. The blend of acids in our peel pads actually penetrate the upper layers of the skin for a more complete removal of dead surface cells.

Q: Why should I use an eye cream?

A: The skin around the eye is much thinner and more delicate than the rest of the skin on our face. It is the first place to show signs of ageing, so keeping it hydrated is really important.
