# 3 STEPS TO THE PERFECT SHAPE

## 1. INNER BROW

Hold a pencil vertically against the outer edge of your nose. Mark a spot with the brow definer – this is where your inner brow should start.

## 2. ARCH

Angle the pencil so it lines up with the outer edge of your nose and the pupil of your eye. Mark the spot where it meets your eyebrow.

## 3. OUTER BROW

Repeat step 2, instead angling the pencil to pass along the outer edge of your eye. Mark the spot where it meets your eyebrow, then use the brow definer to outline your shape, the powder to fill and the wax to set.
