# Bra size measuring guide

use our step-by-step guide to getting the perfect fit

**80%** of women wear the wrong bra size!  
**...are you one of them?**

## Step 1: find your underband size

With your bra on, measure around your rib cage, directly under your bust.

Ensure the tape measure sits firmly against your skin, with no sags or twists. You should be able to slide no more than two fingers under the tape.

## Step 2: find your cup size

Measure around your body, over the fullest part of your bust.

Ensure you're standing upright. Make sure the tape measure is level all the way around and sits flat against your bra, without cutting in.

## Step 3: find your bra size

Round your underband measurement down and your over bust measurement up to the nearest inch. Find the crossover point of your measurements on our chart.

		over bust																		
		inches	32	33	34	35	36	37	38	39	40	41	42	43	44	45	46	47	48	49
under band	27-28		32A	32B	32C	32D	32DD	32E	32F											
	29-30				34A	34B	34C	34D	34DD	34E	34F	36G								
	31-32						36A	36B	36C	36D	36DD	36E	36F	36G						
	33-34								38A	38B	38C	38D	38DD	38E	38F	38G				
	35-36											40B	40C	40D	40DD	40E	40F	40G		
37-38													42B	42C	42D	42DD	42E	42F	42G	

Measurements can only be used as a guide to finding your correct size. Cup shapes and sizes vary, depending on bra style. We recommend trying several styles and sizes to find the best fit.
