## TONING TIME

7 easy steps to **getting in shape**, in the comfort of your own home

push-ups

Position under your upper thigh to increase resistance during push-ups.

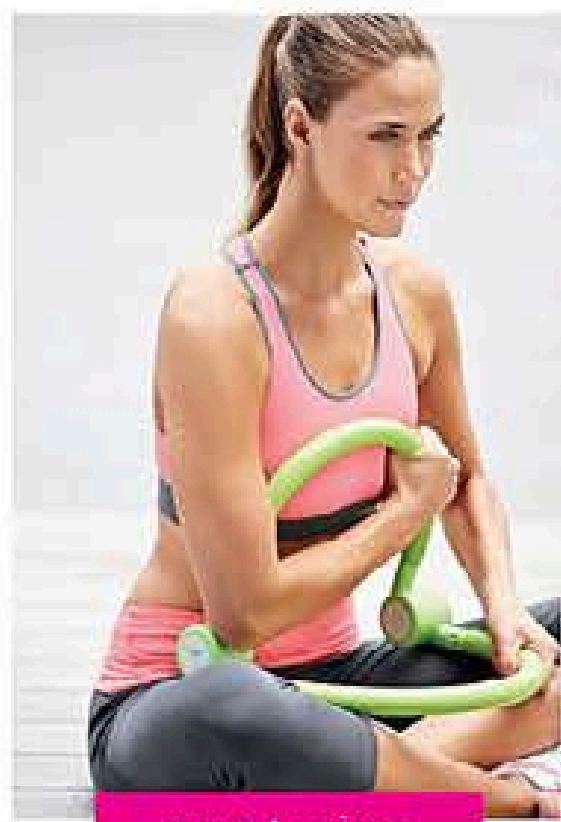

thigh slim

Hold between your thighs then push your knees together so the tubes meet.

leg toning

Whilst sitting, put your feet on the upper bar and push downwards.

arm toning

Sit cross-legged on the floor with the Active Gym opening away from you. Hold the top tube firmly with one hand and bend forwards to make the tubes meet. Repeat using the other arm.

tummy toning

Sit cross-legged on the floor and hold the bottom bar firmly. Bend forward to make the bars meet.

top body toning

Position behind your back to increase the sit-up movement.

waist slim

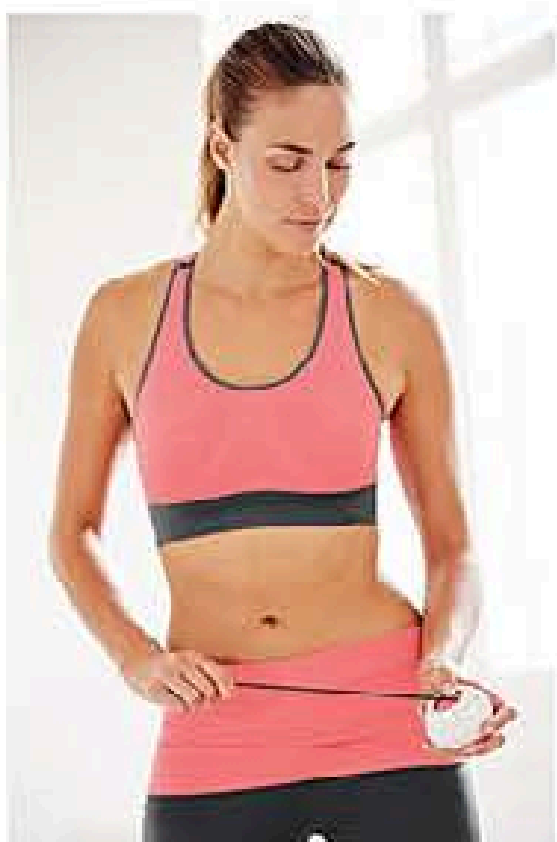

Sit on the floor with knees bent and your hands behind your head. Sit up, then lay back down in a controlled way. Repeat exercise.

**LA fitness**  
We'll get there together.

The Active Gym helps trim your tummy, arms, thighs and upper body, plus you can use it to add resistance to push ups for extra arm toning! To prevent straining your neck when doing sit-ups, keep your hands behind your head and your neck in line with your body. When doing push ups, position yourself correctly by imagining there is a triangle on the floor between your hands and your head.

**LA fitness**  
We'll get there together.

Our portable toning wheel is great for toning your abs, arms and back in one move. Simply roll the wheel backwards and forwards, using your core to keep balance. Do a 'set' of 10 repetitions without stopping. Rest for a few seconds and then do another set of 10. As your fitness improves you'll be able to increase the number of 'reps' you can do without stopping. Make the exercise even harder by crossing your legs or using the wheel on a carpet.

#### With continued use:

- Creates a strong core, helping you look great and feel fantastic!
- Helps strengthen spine-supporting muscles.
- Works to improve your core stability by helping to tone inner muscles.
- Helps to strengthen the muscles that shape your posture.

These are not medical devices. For adult use only. Keep all equipment out of reach of children. Always read instructions and consult your doctor before taking up any form of exercise.

### Top tip!

**Sports bras are not just for professional athletes.** All women should wear one during exercises as they will give you the right support, make you feel comfortable and hold everything in the right place! Invest in a bra suitable for the type of exercise you plan on doing. If you're joining a yoga class, for example, a low impact sports bra is fine, but if you want to take up running, a high impact sports bra offers much better support.
